

Thai Carbon Black touch base with its Investors

Thai Carbon Black Public Co. Ltd welcomed its valued shareholders to an interactive visit of its facility in Anghong, Thailand.

Shareholders of Thai Carbon Black Public Co. Ltd. were invited to visit its manufacturing facility in Anghong, Thailand, on September 15, 2017. Over 40 shareholders visited the plant and the guests participated in the event with great enthusiasm. They were briefed on the various activities that the plant performs and were given a tour of the facility.

Information regarding the Thai Carbon Black plant operations, its infrastructure and the social value of its products were provided to the visitors. They were also apprised about the Aditya Birla Group and its presence in Thailand and globally. The efforts of Thai Carbon Black in achieving manufacturing excellence, customer engagement and Health, Safety and Environment compliance were explained to the guests.

Topics such as employee's well-being and CSR activities were also touched upon. The exchange of ideas also included the successful startup of Birla Carbon plant in Jining, China, earlier in September 2017.

The event was a grand success and was well appreciated by the visiting shareholders.
