Condensed interim financial statements for the three-month period ended 30 June 2020 and Independent auditor's review report

#### **Independent Auditor's Report on Review of Interim Financial Information**

#### To the Board of Directors of Birla Carbon (Thailand) Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of Birla Carbon (Thailand) Public Company Limited and its subsidiary, and of Birla Carbon (Thailand) Public Company Limited, respectively, as at 30 June 2020; the consolidated and separate statements of income and comprehensive income, changes in equity and cash flows for the three-month period ended 30 June 2020; and condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

#### Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

#### Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

Birla Carbon (Thailand) Public Company Limited and its Subsidiary

Notes to the condensed interim financial statements

For the three-month period ended 30 June 2020 (Unaudited)

These notes form an integral part of the financial statements.

The interim financial statements issued for Thai regulatory reporting purposes are prepared in the Thai

language. These English language financial statements have been prepared from the Thai language

statutory financial statements, and were approved and authorised for issue by the Company's

authorised Board of Directors on 14 August 2020.

1 General information

The principal activities of the Group are the manufacture and sale of carbon black. Details of the

Company's associates and subsidiary as at 30 June 2020 and 31 March 2020 are given in notes 8 and 9.

2 Basis of preparation of the interim financial statements

(a) Statement of compliance

The condensed primary interim financial statements are presented in the same format as the annual

financial statements and prepared its notes to the interim financial statements on a condensed basis

("interim financial statements") in accordance with Thai Accounting Standard (TAS) No. 34 Interim

Financial Reporting, guidelines promulgated by the Federation of Accounting Professions and

applicable rules and regulations of the Thai Securities and Exchange Commission.

The interim financial statements do not include all of the financial information required for full annual

financial statements but focus on new activities, events and circumstances to avoid repetition of information

previously reported. Accordingly, these interim financial statements should be read in conjunction with the

financial statements of the Company and its subsidiary for the year ended 31 March 2020.

The Group has initially applied TFRS - Financial instruments standards and disclosed impact from changes

to significant accounting policy in note 3.

In addition, the Group has not early adopted a number of new and revised TFRS, which are not yet

effective for the current period in preparing these financial statements. The Group has assessed the potential

initial impact on the financial statements of these new and revised TFRS and expects that there will be no

material impact on the financial statements in the period of initial application.

14

#### (b) Use of judgments, estimates and accounting policies

In preparing these interim financial statements, judgements and estimates are made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that described in the financial statements for the year ended 31 March 2020, except for the new significant judgements and key sources of estimation uncertainty related to the application of new TFRS as described in note 3 and application of guidance on the temporary relief measures for additional accounting options in response to impact from the COVID-19 issued by TFAC as described in note 4.

#### 3 Change in accounting policy

From 1 April 2020, the Group and the Company has initially applied TFRS - Financial instruments standards. Impact of changes in accounting policy on shareholders' equity are as follows:

		Consolidated	Separate
		financial statements	financial statements

#### A. TFRS - Financial instruments standards

The Group and the Company has adopted TFRS - Financial instruments standards by adjusting the cumulative effects to other components of equity on 1 April 2020. Therefore, the Group and the Company did not adjust the information presented for 2019.

These TFRS - Financial instruments standards establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting. The impact from adoption of TFRS - Financial instruments standards are as follows:

#### (1) Classification and measurement of financial assets and financial liabilities

TFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value to other comprehensive income (FVOCI) and fair value to profit or loss (FVTPL). The classification under TFRS 9 is based on the cash flow characteristics of the financial asset and the business model in which they are managed. TFRS 9 eliminates the previous classification of held-to-maturity debt securities, available-for-sale securities, trading securities and general investment as specified by TAS 105.

Under TFRS 9, interest income and interest expenses recognised from all financial assets and financial liabilities measured at amortised cost shall be calculated using effective interest rate method. The adoption of TFRS 9 has no material effect on the consolidated and separate financial statements of the Group and the Company.

The following table shows measurement categories under previous standards and TFRS 9, including reconciliation of the carrying amounts of each class of the Group and the Company's financial assets as at 1 April 2020.

### Consolidated and separate

- Other non-marketable		
equity securities	223,204	88,679
Total other financial assets	223,204	88,679

The Group and the Company intends to hold non-marketable equity securities amounted of Baht 89 million, for the long-term strategic purposes. The Group and the Company has designated them as measured at FVOCI. The accumulated gain (loss) on measurement of these investments will not be reclassified to profit or loss.

#### 4 Impact of COVID-19 outbreak

Due to the COVID-19 outbreak at the beginning of 2020, Thailand and many other countries have enacted several protective measures against the outbreak, e.g. the order to temporarily shut down operating facilities or reduce operating hours, social distancing, etc. This has significantly affected world economy, production, supply chain of goods and business operation of many entities in wide areas. The management is closely monitoring the situation to ensure the safety of the Group's staff and to manage the negative impact on the business as much as possible.

At 30 June 2020, the COVID-19 pandemic continues, resulting in estimation uncertainty of the potential impact. Therefore, the Group elected to apply the guidance on temporary accounting relief measures for additional accounting options in response to impact from the COVID-19 outbreak issued by TFAC to exclude the COVID-19 situation as impairment indicator for property, plant and equipment.

#### 12 Segment information

Management considers that the Group operates in a single line of business, namely carbon black, and has, therefore, only one reportable segment.

#### 13 Income tax expense

Tax expense is recognised based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim period. The Group's consolidated effective tax rate for the three-month periods ended 30 June 2020 and 2019 in the consolidated financial statements were -0.19% and 19.85%, respectively (separate financial statements for the three-month periods ended 30 June 2020 and 2019: -0.29% and 20.01%, respectively). The difference between effective tax rate and corporate income tax rate was caused mainly by the different treatment for accounting and taxation purposes of certain items of income/expense, in particular unrealised loss on derivatives.

#### Carrying amounts and fair values

The following table shows the carrying amounts and fair values of financial assets, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets not measured at fair value if the carrying amount is a reasonable approximation of fair value.
